

AGX MoM L UHF (Mount on Metal)

Product Description		AGX MoM L UHF (Mount on Metal)
Electrical Characteristics		
Operating Frequency		UHF 860 - 950 MHz
Standard		EPC Gen2
UID		96 Bit
Memory		224 Bit
Read range		up to 1 m* on Metal
Thermal & Environmental Characteristics		
Operational temperature		-20°C bis +65°C
Packaging Protection Class		no dust impact
RoHs Compliance		YES
Dimensions LxHxT		150 x 23 x 18 mm
Attachement		Screw, rivet or glue
Material specifications		High resistance against fracture, scratch and impact.
Application		The AGX MoM L UHF (on metal) is used for marking of metal items in the industrial production and tracking process.
*The reading range was determined with an RFID writer PR 500		
Article no:		
Article no:		AGX MoM L
Typical Applications		
Suitable for metal environment		
Maintenance & Service		
Industrie & Production
