

AGX MoM XL UHF (Mount on Metal)

Product Description	AGX MoM XL UHF (Mount on Metal)
Electrical Characteristics	
Operating Frequency	UHF 860 - 950 MHz
Standard	ISO 18000-6B
UID	64 Bit locked
Memory	2 kBit
Read range	up to 5 m* on Metal
Thermal & Environmental Characteristics	
Operational temperature	-20°C bis +65°C
Packaging Protection Class	no dust impact
RoHs Compliance	YES
Dimensions LxHxT	230 x 15 x 15 mm
Attachement	Screw, rivet or glue
Material specifications	High resistance against fracture, scratch and impact.
Application	The AGX MoM XL UHF (on metal) is used for marking of metal items in the industrial production and tracking process.
*The reading range was determined with an RFID writer PR 500	
Article no:	
Article no:	AGX MoM XL
Typical Applications	
Suitable for metal environment	
Maintenance & Service	
Industrie & Production
